**RFB Objective:**
To reduce fleet fueling and lubrication cost, improve service, and reduce environmental risks.

**Purpose of RFB:**
To seek a vendor to consign fuel to “SAPA members tanks and to establish retail outlets throughout the South Alabama area. It is preferred that retail sites have gas, oil and diesel and are open 24 hours. The fuel management system must be capable of electronically billing to any individual department of the participating agency.

**RFB Details:**
Costs of fuel will be by day or week, stated as a base price determined by the Mobile County, Alabama (OPIS) weekly average plus a markup rate over OPIS (MARGIN) for full tanker loads over 7,000 gallons and a separate rate for tanker loads under 7,000 gallons, which MARGIN is to include vendor’s profit and any and all other costs associated with making the product available to the user.

The vendor is to be responsible for all maintenance (except for vandalism) required by the system from base of the dispensing unit, to include the dispensing unit, to the card reader control unit and any and all equipment above ground related to dispensing of fuel.
